Updating Screen Resolution Preferences

After initial login, Click Settings:

Change Window Size: The system defaults to a fixed resolution. If preferred, select “Seamless” for application to run as a stand-alone window.

The screenshot shows the Citrix XenApp Settings interface. At the top, there is a browser address bar with the URL 'https://etconnect.energ...' and a tab titled 'Citrix XenApp - Settings'. Below the browser bar, there is a header area with 'Logged on as: [redacted]', 'Settings' (gear icon), 'Log Off' (lock icon), and the 'CITRIX' logo. The main content area is titled 'Settings' and contains two sections: 'General' and 'User Experience'. The 'General' section includes settings for 'Show Hints (Full Graphics only)', 'Reconnect at logon' (set to 'All active and disconnected sessions'), 'Log off all sessions', and 'Reconnect' (set to 'All active and disconnected sessions'). The 'User Experience' section includes a 'Window size' dropdown menu which is currently open, showing options: 'Seamless', 'No preference', 'Seamless', 'Full screen', 'Custom dimensions', 'Percentage of screen', '640 X 480', '800 X 600', '1024 X 768', '1280 X 1024', and '1600 X 1200'. The 'Seamless' option is highlighted. At the bottom right of the settings area, there are 'Save' and 'Cancel' buttons.
